

HOW TO USE

**Step 1:**

Clean skin, no oil or dirt, oil-free makeup (use powder/cream/lace tint) on lace. For oily skin, use a protector before applying glue.

**Step 2:**

Use enough adhesive. Make sure you are covering from the hairline to the back of the cap.

**Step 3:**

Apply the glue smoothly and evenly to the skin. If you put too much, the glue won't dry clear.

**Step 4:**

Tie down for 10 minutes. Can't get wet within 24 hours.
