Subject : Application for the position of Coil Tubing Supervisor

Dear Sir / Madam,

With more than 17 years of experience in well services and coil tubing operations internationally (Saudi Arabia, Kuwait, Oman, Algeria), I am sending you my application for the position of Coil Tubing Supervisor within your company.

During my career, I have supervised complex operations on horizontal and vertical, on shore and offshore ,conventional and unconventional wells in HP/HT environments and with high H₂S content, while rigorously respecting international HSE standards. I have also led specialized works such as milling plugs, abrasive jetting, acid stimulation, as well as fishing in sensitive zones, always ensuring performance, safety, and client satisfaction.

My technical mastery is accompanied by a strong sense of organization, excellent interpersonal skills, and an ability to manage multicultural teams. Bilingual (French/English) and mobile, I am ready to fully invest myself in new projects in Canada, where I wish to put my skills at the service of a recognized actor in the oil sector.

I would be honored to contribute to your operations and to discuss my application with you. I remain at your disposal for any interview or additional information.

Awaiting your reply, please accept, Sir or Madam, the expression of my best regards.

Sincerely,

NECIR MOHAMMED
