El Oued, Algeria

OBJECTIVE

With over 17 years of experience in well services and coil tubing internationally (Saudi Arabia, Kuwait, Oman, Algeria), I am seeking to leverage my expertise in Canada within a dynamic oil and gas company. Having rigorously supervised complex operations in H₂S, HP/HT, and both horizontal and vertical well environments, I have developed a strong safety mindset, team coordination skills, and adherence to national and international standards. Proactive, bilingual (French/English), and accustomed to multicultural work environments, I am ready to take on new technical and human challenges within your teams.

SKILLS

- Supervising coil tubing operations on oil, gas, water, horizontal, and vertical wells.
- Ensuring strict compliance with HSE standards in critical environments (H₂S, HP/HT).
- Managing acid stimulation, clean-out, milling, and fishing interventions.
- Analyzing technical programs and adapting intervention methods.
- Leading and training on-site teams to ensure operational efficiency.
- Performing preventive and corrective maintenance on CT units, nitrogen, and Triplex HP pumps.
- Collaborating with clients and subcontractors to ensure operational satisfaction and follow-up.
- Preparing daily reports, work permits, and associated technical documentation.

LANGUAGES

English: Advanced

French: Intermediate

Arabic: Native Language

PROFESSIONAL EXPERIENCE

01/2024 – Present Completions & Well Services Supervisor

Algeria Hassi Bir Rekaiz Group: SONATRACH Company

- Coordinate subcontractor activities onsite for well completions.
- Oversee installation of X-Tree and operations including slickline, wireline, coil tubing, well testing, and wellhead maintenance.
- Ensure compliance with HSE standards through appropriate controls.
- Analyze technical programs and recommend adjustments as needed.
- Manage daily reports and operation progress.
- Participate in tender evaluation and contractual/subcontractor cost follow-up.

02/2020 – 12/2023 Senior Coil Tubing Supervisor

Saudi Arabia National Energy Services Reunited Corp NESR Company

- Plan and execute HP/HT coil tubing interventions per ARAMCO standards.
- Conduct E-line logging operations and monitor production zones.
- Use GS pulling tools for fishing operations and ICD deployment.
- Clean blocked wells using the Power Waves Tool and address iron sulfide.
- Install inflatable plugs on high H₂S wells using HR units, including HR GENESIS.
- Conduct unconventional tasks: plug milling, fishing, abrasive jetting, injectivity testing and acid squeeze.

02/2018 – 01/2020 Senior Coil Tubing Supervisor

Kuwait CPVEN Multinational Company

- Validate equipment and secure WSMS hot permits.
- Plan preventative maintenance for coil tubing and nitrogen units.
- Ensure adherence to technical and HSE procedures.
- Execute coil tubing operations according to plan.
- Supervise on-site clean-out and nitrogen lift operations.
- Coordinate DST and under-balance interventions.

01/2015 – 12/2017 Coil Tubing Service Supervisor

Saudi Arabia Halliburton Company

- Manage onshore/offshore coil tubing operations to ARAMCO standards.
- Organize clean-out, acid matrix, and milling jobs.
- Maintain complete documentation and signed procedures.
- Inspect CT equipment and ensure its maintenance.

Ennour City Bayadha 39007
El Oued, Algeria

09/2013 – 12/2014 Coil Tubing Service Supervisor

Oman Gulf Energy IPC Company

- Organize HSE meetings and prepare JSAs before each operation.
- Collect well samples and transmit real-time data.
- Oversee H₂S well operations without cranes in complex environments.
- Coordinate clean-out, acid matrix, and nitrogen lift tasks.

08/2012 – 09/2013 Field and Coil Tubing Specialist

Algeria Schlumberger Company

- Lead pre-job meetings and prepare security (PTW, MOC).
- Manage clean-out, nitrogen kick-off, acid matrix, and more.
- Install CT equipment per HSE standards.
- Liaise with clients such as BP, ENI, Anadarko, SONATRACH.

11/2010 – 08/2012 Coil Tubing Supervisor

Algeria BJ Services Algeria Company

- Conduct safety meetings and validate procedures pre-job.
- Oversee CT pumping, bull-heading, and nitrogen snubbing.
- Supervise surface line cleaning and flushes.
- Ensure CT equipment maintenance onsite.

01/2009 – 11/2010 Triplex HP / Nitrogen Pump Operator

Algeria BJ Services Algeria Company

- Monitor CT pumping and bull-heading operations.
- Manage cleanings, packers, and annular tests.
- Perform purging and snubbing with nitrogen operations.
- Ensure the maintenance of pumping equipment.

INTERNSHIPS

03/2008 – 05/2008 Gas Treatment & Reinjection Internship (Final Year Project)

Algeria Rhourd El Baguel Zone: SONATRACH Company

08/2007 Refinery Maintenance Internship

Algeria Hassi Messaoud Refinery: SONATRACH Company

TRAINING

01/2025 Well Servicing Coiled Tubing Training (IADC WELLSHARP Certificate)

Saudi Arabia International Association of Drilling Contractors Drilling Industry Training Center

04/2021 Helicopter Underwater Escape Training

Saudi Arabia SMTC GLOBAL Center

08/2016 H₂S Awareness, First Aid, CPR and AED Awareness Training

Saudi Arabia International Association of Drilling Contractors Drilling Industry Training Center

05/2010 Leadership for Safety Excellence Training

Algeria BJ Services Algeria Company

EDUCATION

09/2003 – 06/2008 State Diploma of Mechanical Engineer in Petrochemical Units

Algeria M'Hamed Bouguerra University of Boumerdes

09/2001 – 06/2003 Baccalaureate in Natural Sciences

Algeria Moufdi Zakarya High School
